YOURS

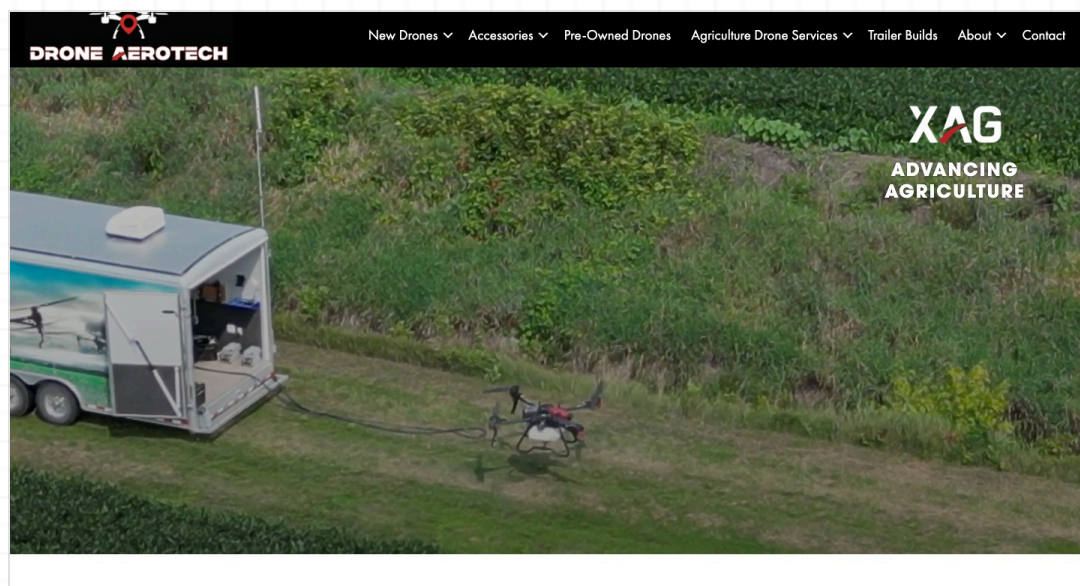

Yours to keep
site and domain in your name

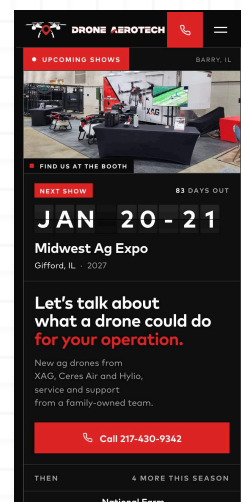

01 WHERE WE STARTED

What we built it around.

- 01 Let's talk about what a drone could do for your operation.
Your own homepage line. Option 1 makes your show calendar the page: the next show's date huge, the rest of the season beneath it, your booth and your pilots on the same board, and past shows drop off by themselves.
- 02 From Interstate 70 to Interstate 80.
From your About page. Option 2 puts Bryce, Chuck and Blake in front, the pilots who also sell and support the drones, with Call one tap away.
- 03 XAG, Ceres Air and Hyllo.
The three makers on your New Drones page. Option 3 hangs one real drone from each side by side, so a farmer can compare before calling.

06 QUESTIONS

The usual questions.

01 Will moving hurt my Google ranking?

We move it carefully. Every page address on your current site keeps working or forwards to its new page, and your titles and business details carry over, so nothing Google already knows about breaks. The new site is fast and built for phones first, which Google rewards. We don't promise rankings.

02 Is it secure?

Yes. No WordPress or plugins to keep patching, modern hosting with SSL, and every version saved, so any change can be rolled back.

03 Who owns it?

You do. The site and the domain are in your name, not ours. Hosting is included and nothing renews unless you ask. If you ever want to move it, you get every file.

04 How do I make changes?

Text or email me the change and it's live the next business day. The first 30 days are free. After that, unlimited changes come with any monthly plan, from \$250 a month, cancel anytime.

05 When do I pay?

Half (\$1,250) when you say go, the rest (\$1,250) when the site is live. You've seen the homepage before paying anything.

06 What if the brands I carry change?

Then the site changes with it. Product pages are built to swap, and I'll redo them before launch if your lineup changes.
